Where a report is filed recommending designation of a district, the report must identify those properties, if any, within the district which are not historically or architecturally compatible with structures in the district. No building, structure, improvement, landscape feature or archaeological site within Hialeah which is designated pursuant to Section 10 of this Chapter shall be erected, altered, restored, renovated, excavated, moved or demolished until an application for a Certificate of Appropriateness regarding any architectural features, landscape features or site improvements has been submitted to and approved pursuant to the procedures in this section. Architectural features shall include, but not be limited to, the architectural style, scale, massing, siting, general design and general arrangement of the exterior of the building or structure, including the type, style and color of roofs, windows, doors and appurtenances. Architectural features shall include, when applicable, interior spaces where interior designation has been given pursuant to Section X of this Chapter. Landscape features and site improvements shall include, but are not limited to, site regrading, subsurface alterations, fill deposition, paving, landscaping, walls, fences, courtyards, signs and exterior lighting. B. The Board shall develop procedures for making application for a Certificate of Appropriateness.

C. The Board shall adopt and may from time to time amend the standards by which applications for any Certificate of Appropri-

ateness are to be measured and evaluated. D. Certificates of Appropriateness

1. An applicant for a Certificate of Appropriateness shall submit his application to the Board pursuant to Section 10 of this Chapter and accompany such application to the Board with full plans and specifications, site plan, and samples of materials as deemed appropriate by the Board to fully describe the proposed appearance, color, texture or materials, and architectural design of the building and any outbuilding, wall, courtyard, fence, landscape feature, paving, signage and exterior lighting. The applicant shall provide adequate information to enable the Board to visualize the effect of the proposed action on the applicant's building and its adjacent buildings and streetscapes. If such application involves a designated archaeological site the applicant shall provide full plans and specifications of work that may affect the surface and subsurface of the archaeological site.

2. The Board may hold a public hearing upon an application for a Certificate of Appropriateness affecting property under its control. In such instances, notice and procedure of the public hearing shall be given to the property owner(s) by certified mail and to other interested parties by an advertisement in a newspaper of general circulation at least ten (10) days prior to the hearing.

The Board shall approve, deny, approve in modified form (subject to the acceptance of the modification by the applicant), or suspend action on the application for a period not to exceed thirty (30) days in order to seek technical advice from outside

its members or to meet further with the applicant to revise or modify the application.

Evidence of approval of the application shall be by Certificate of Appropriateness issued by the Board and whatever its decision, notice in writing shall be given to the applicant and the director of both the Building and Zoning Divisions. When an application is denied, the Board's notice shall provide an adequate written explanation of its decision to disapprove the application. The Board shall keep a record of its actions under this ordinance.

The Board may make recommendations and suggestions to the government agency and the owner(s) relative to the feasibility of and the public interest in preserving the designated property.

3. No permit for voluntary demolition of a designated building, structure, improvement or site shall be issued to the owner(s) thereof until an application for a Certificate of Appropriateness has been submitted and approved pursuant to the procedures in this Section. Refusal by the Board to grant a Certificate of Appropriateness shall be evidenced by written order detailing the public interest which is sought to be preserved. The Board shall be guided

by the criteria contained in Paragraph E(4) herein. The Board may grant a Certificate of Appropriateness which may provide for a delayed effective date of up to six (6) months. The effective date shall be determined by the Board based upon the relative significance of the structure and the probable time required to arrange a possible alternative to demolition. During the demolition delay period, the Board may take such steps as it deems necessary to preserve the structure concerned, in accordance with the purposes of this ordinance. Such steps may include, but shall not be limited to, consultation with civic groups, public agencies and interested citizens, recommendations for acquisition of property by public or private bodies or agencies, and exploration of the possibility of moving one or more structures or other features.

4. In addition to all other provisions of this ordinance, the Board shall consider the following criteria in evaluating applications for a Certificate of Appropriateness for demolition of designated properties:

- (a) Is the structure of such interest or quality that it would reasonably meet national, state, or local criteria for designation as an historic or architectural landmark?
- (b) Is the structure of such design, craftsmanship, or material that it could be reproduced only with great difficulty and/or expense?
- (c) Is the structure one of the last remaining examples of its kind in the neighborhood, the City, or the region?

- (e) Would retention of the structure promote the general welfare of the City by providing an opportunity for study of local history, architecture, and design or by developing an understanding of the importance and value of a particular culture and heritage?
- (f) Are there definite plans for reuse of the property if the proposed demolition is carried out, and what will be the effect of those plans on the character of the surrounding area?

F. Where, by reason of particular site conditions and restraints, or because of unusual circumstances applicable solely to the particular applicant, strict enforcement of the provisions of this ordinance would result in serious undue economic hardship to the applicant, the Board shall have the power to vary or modify adherence to this ordinance; provided always that the Board's decisions ensure harmony with the general purposes hereof and will not adversely affect Hialeah. Guidelines for the application of this section may be developed by the Board.

G. No Building Permit shall be issued by the Building Official which affects any designated property in Hialeah without a Certificate of Appropriateness.

H. All work performed pursuant to the issuance of any Certificate of Appropriateness shall conform to the requirements of the Certificate. The Mayor shall designate an appropriate official(s) to assist the Board by making necessary inspections in connection with enforcement of this ordinance. Such official(s) shall be empowered to issue a stop work order if performance is not in accordance with the issued certificate. No work shall proceed as long as a stop work order continues in effect. Copies of inspection reports shall be furnished to the Board and copies of any stop work orders both to the Board and the applicant. The Building Official or other appropriate official and staff to the Board shall be responsible for ensuring that any work not in accordance with an issued Certificate of Appropriateness shall be corrected to comply with the Certificate of Appropriateness prior to withdrawing the stop work order.

I. For the purpose of remedying emergency conditions determined to be dangerous to life, health or property, nothing contained herein shall prevent the making of any temporary construction, reconstruction or other repairs to a building or site in Hialeah, pursuant to an order of a government agency or a court of competent jurisdiction. The owner of a building damaged by fire or natural calamity shall be permitted to stabilize the building immediately without Board

approval, and to rehabilitate it later under the normal review procedures of this ordinance.

J. If no action upon an application is taken within sixty (60) days from the date of application, such application shall be deemed to have been approved and no other evidence of approval shall be needed. This time limit may be waived by mutual written consent of the applicant and the Board.

K. The Board shall have the authority to review applications for Certificates of Appropriateness for all property in Hialeah, however title is held, by either private or public parties. The purposes of this ordinance shall apply equally to plans, projects or work executed or assisted by any private party, governmental body or agency, department, authority or board of the city, county or state.

Nothing in this ordinance shall be construed to prevent the ordinary maintenance or repair of any exterior elements of any building or structure which does not involve a change of design, appearance or material, and which does not require a building permit.

Section XIII. Certificates to Dig

A. Within an archaeological zone, new construction, filling, digging, the removal of trees, or any other activity that may alter or reveal an interred archaeological site shall be prohibited without a Certificate to Dig. All applications for permits involving new construction, large scale digging, the removal of trees or any other activity that may reveal or disturb an interred archaeological site, in an archaeological zone shall require a Certificate to Dig before approval. filed, approve the application for a Certificate to Dig by the owners of a property in a designated archaeological zone. The Certificate to Dig may be made subject to specified conditions, including but not limited to, conditions regarding site excavation. In order to comply with the site excavation requirements of the Certificate to Dig, the applicant may be required to permit the County Archaeologist or other Archaeologist assigned by the Board to conduct an excavation from the time of the approval of the Certificate to Dig until the effective date thereof.

B. Approved Certificates to Dig - Approved Certificates to Dig shall contain an effective date no later than sixty (60) days after approval, at which time the proposed activity may begin, unless prior to or during that period the Board decides to designate the site in question as an individual site or district pursuant to Section X of this ordinance in which event all the rules and regulations pertaining to the designation process shall apply from the date the designation report has been filed.

C. All work performed pursuant to the issuance of a Certificate to Dig shall conform to the requirements of such certificate. It shall be the duty of the appropriate government agencies and the staff to the Board to inspect from time to time any work pursuant to such certificate to assure compliance. In the event work is performed not in accordance with such certificate, the official(s) designated by the Mayor pursuant to Section XI, Paragraph H shall be empowered to issue a stop work order and all work shall cease. No person, firm or corporation shall undertake any work on such projects as long as such stop work order shall continue in effect.
